WELCOME!

MAKING VINYL

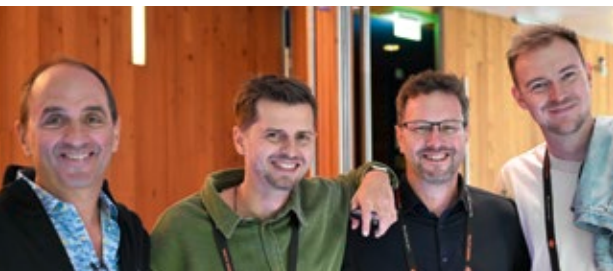

EUROPE 2026

From supply chain issues, demand dynamics, environmental best practices, and street date shuffle to postal paralysis: you're navigating any number of current industry issues. Together we're solving them.

Nestled in Greater Amsterdam, the Making Vinyl Europe Conference returns to Haarlem September 30 – October 2, 2026 – as a direct extension of the acclaimed Making Vinyl event held in Alexandria, USA, earlier this year. Serving as its sister event, Making Vinyl Europe promises an energizing immersion into the global resurgence of vinyl culture. Welcome back, or welcome for the first time – this community has room for more.

Whether you're a pressing plant operator, label, engineer, artist, journalist, distributor, or collector – if vinyl is your world, this event is for you.

TO REGISTER**

Attendees will gain valuable insights from a diverse international lineup of speakers across panel discussions, workshops, and hands-on lab sessions – empowering them to navigate the ever-evolving vinyl industry with confidence and creativity. With each edition, our topics and program grow richer and more nuanced – shaped by the conversations that came before and the voices that keep joining. That’s what makes it work.

More than just a business gathering, Making Vinyl Europe offers an opportunity to celebrate the soul-stirring power of music and the enduring legacy of vinyl. Networking sessions, interactive exchanges, and a vibrant community of like-minded professionals from across the globe make this an event worth planning your trip around. The organizing team is proud to bring the conference back to Haarlem for the

fourth time and eagerly anticipates welcoming attendees to this dynamic and culturally rich city. Keep an eye on makingvinyl.com for upcoming details – including full program highlights and speaker announcements.

Want to know more? Have a question – whether you’re interested in sponsoring, speaking, attending, or simply curious? **Reach out.** Together we are making vinyl.
